

Type of contract: Full time/ Undetermined

To support its growing operations in Luxembourg, Datacenter Luxembourg S.A. (www.datacenter.eu) is looking for a:

Senior Cloud Infrastructure Engineer (m/f)

Datacenter.eu, a market leading Internet, Cloud and Colocation Services Provider is seeking a full time Senior Cloud Infrastructure Engineer. This role will be part of a highly technical engineering team responsible for architecting and delivering solutions. This role will be a unique blend of hands on delivery, solutions design and architecture. Your mission will be as follows:

- Architect, develop and operate highly secure, compliant, resilient, cost-efficient, and high-performing solutions on our Cloud Infrastructure environments for our customers and partners
- Ensure that technology solutions are designed, implemented and operated in a way that solves customer problems. Always have the customer interest in mind, and think about long-term customer relationships
- Providing configuration management and security compliance for the virtual infrastructure software and hardware
- Performing advanced troubleshooting and root cause analysis to expedite incident resolution.
- Participating in the 24x7 on-call support rotation
- Participate to the innovation of the infrastructure, evaluate new products and solutions

EXPERIENCE AND KEY COMPETENCES

- Must have, at minimum, a bachelor (level) degree in Computer Sciences
- Knowledge and understanding of industry trends and new technologies and the ability to apply trends to architectural needs
- Proven experience and understanding of architecture principles across infrastructure platforms, security, data, integration, and application layers
- At least 5 years of professional, hands-on experience in virtualization with VMware, previous experience in a VMware Service Provider environment is an asset.
- Strong knowledge and experience with VMware vSphere 6.7 and above
- Knowledge and experience with VMware Cloud Director and NSX-T will be considered as an asset
- Experience with SAN/NAS technologies
- Good level of English (both oral and written) is mandatory, French is considered as an asset and all other language is considered as a plus
- Work collaboratively across teams.
- Strength in problem solving, issue-resolution, ability to work in a deadline-driven work environment, attention to detail, and ability to multitask.

COMPENSATION

Datacenter Luxembourg offers a challenging job with varied tasks in a professional and dynamic environment. It offers tailored compensation packages which can include:

- an attractive salary;
- an annual bonus based on predefined goals;
- meal vouchers;
- a company car;
- mobile phone & laptop.
